SURPHETTA

ARCHITECTURAL FILM

THE CATALOGUE

Every Surphetta architectural film finish

2026/2027 · 250 FINISHES IN 22 LINES

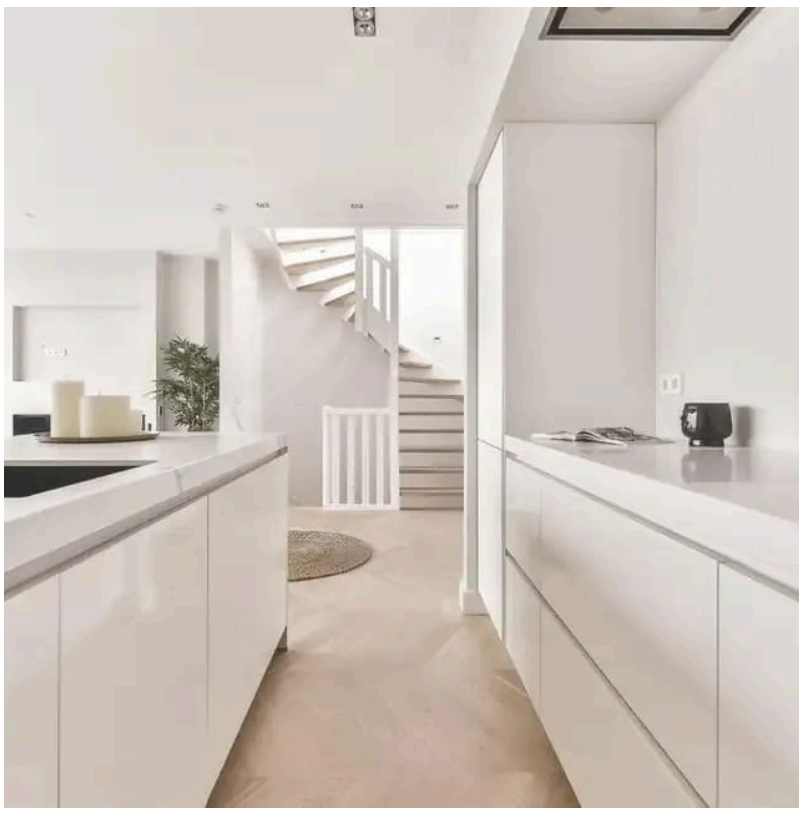

Engineered architectural surfaces: hospitality, medical and multifamily.

surphetta.com

The film.

Surphetta is a self-adhesive architectural film engineered for hospitality, medical and multifamily interiors. It is a finish, not a laminate: a printed and embossed film with a pre-applied, air-channel pressure-sensitive adhesive that is applied to the substrate in place. Existing casework, doors, columns, reception desks and wall linings can be refinished without strip-out, without solvent smell and without taking the space out of service for a week.

250	1220	Class A	10 yr
µm thick	mm wide	ASTM E84	warranty

Shown: TX-101 · White High Gloss

Construction	Printed, embossed film with pre-applied air-channel pressure-sensitive adhesive
Thickness	250 µm
Roll size	1220 mm wide × 50 m
Fire performance	Class A (Class 1) to ASTM E84; B1 not-easily-flammable to DIN 4102-1
Environmental	VOC-free; resistant to mould and fungus
Warranty	10 years on the film; 5 years on installations by Surphetta certified installers
Substrates	Wood, MDF, painted drywall, metal, glass, laminate and plastic, correctly prepared
Applications	Walls, ceilings, doors and frames, casework, columns, reception joinery, lift interiors and commercial fit-out

Figures published by the manufacturer. Confirm current specification and certification for the project of record.
